SECTION 16: FINAL INSIGHTS REPORT

1. Revenue Trends

The monthly revenue analysis shows clear ups and downs across different months. Some months generated significantly higher revenue than others.

Using ranking and month-over-month comparison, we can clearly identify the strongest and weakest months. This helps the business understand seasonal patterns and plan better for future months.

2. Marketing Effectiveness

By calculating **CAC (Cost per Acquisition)** and **ROI** for each marketing channel, we can see which channels are performing well and which are not.

- Channels with **low CAC** and **high ROI** are the most effective.
- Channels with high spending but low enrollments need review or reduced budget.

This analysis helps the company spend marketing money more wisely.

Screenshots of outputs for all analytical queries

3. High Performing Courses

Some courses generate much higher revenue and have more enrollments than others.

Top courses should be promoted more aggressively. Low-performing courses may need better content, pricing changes, or improved marketing.

4. City-wise Demand

Enrollment data shows that demand is not the same in every city.

Some cities have consistently high student registrations and enrollments. The company can increase marketing efforts and local campaigns in these high-demand cities to get better results.

5. Trainer Impact

Trainers with higher satisfaction scores are generally linked to better course performance.

This means good trainers positively impact student experience and possibly course popularity.

Trainers with low satisfaction scores may need additional support or training.

6. Overall Business Recommendations

1. **Focus marketing budget** on channels that give high ROI and low CAC.
2. **Promote top-performing courses** more heavily.
3. **Increase efforts in high-demand cities.**
4. **Support or retrain** low-performing trainers.
5. **Monitor monthly revenue trends** regularly to catch problems early.
6. **Use data-driven decisions** instead of guessing for future planning.
